

## **ISTANBUL BEYKENT UNIVERSITY RESEARCH AND DEVELOPMENT POLICY**

Istanbul Beykent University aims to achieve knowledge by directing its research resources to both national and international studies. It strives to "go beyond knowledge" and "continuously improve" by providing its research infrastructure to all stakeholders through collaborations conducted by faculty members, students, and the institution.

The objectives shaped within the framework of the Research and Development Policy adopted by Istanbul Beykent University are as follows:

- 1.** Providing and maintaining the necessary resources to ensure and sustain up-to-date research and development infrastructure.
- 2.** Enhancing the research and development skills and competencies of academic staff and supporting all research activities.
- 3.** Creating and implementing support mechanisms for the transfer of knowledge and technology through University-Public Institutions, University-Industry, and University-University collaborations.
- 4.** Enhancing and supporting the internationalization dimension of research activities.
- 5.** Encouraging and supporting activities aimed at the United Nations Sustainable Development Goals.
- 6.** Ensuring the sustainability of the mechanisms within the institution to increase the effectiveness and efficiency of the Research and Development Policy by maintaining their activities with the "plan, do, check, act" managerial cycle.

Evaluations are made to monitor the realization of these objectives, and corrective and continuous improvement measures are taken when necessary.
